"As ye sow - so shall ye reap!"

Are you a common dirt gardener - or do you like to "pick the flower" that someone else has grown? I do not believe there is anything more satisfying than to see the fruits of one's efforts. Imagine a world without flowers - trees - shrubs - how drab it would be! Do your part by making your own home grounds more beautiful. Try growing small plants - it will not only be a lot of fun, but the cost will be so insignificant that you will be doubly repaid.

The plants we have to offer are too small now for landscaping, but by placing them in a nursery bed and carefully nurturing them - you will be surprised at the lovely showing they will make in 2 or 3 years. The specimens of Azaleas, Pieris Japonica, flowering trees, yews and shrubs many of our customers have acquired in a few years are amazing. These plants would be quite expensive if purchased as large specimens but with a little patience and time you too can produce specimens from these baby plants we have to offer.

These plants are vividly described in Hotte's Book on Shrubs and Book on Trees at \$4.00 postpaid. We can supply both. Make good Christmas and birthday presents. All plants should be grown in a bed for one or more years before planting in permanent place.

For \$5.00 you can select \$5.00 worth of plants from this list. Prices include packing and postal charges. As we sell our plants at such low prices no order for less than \$2.00 will be accepted. No broken lots will be sold. Where order calls for 5 for 50 cts., one will not be sold for 10 cts. 5 must be ordered. 25 sold at 100 rate.

Prices per 100 are net, no discount.

Please suggest one substitute per 10 items ordered.

Owing to our careful packing with wet peat moss; the cost of Express and Parcel Post to points beyond Rocky Mountains, eliminate the profits. Therefore, please add 10% to remittances from these places.

The group containing Azaleas are very easy to handle if planted in part shade, provided either by a building or a lath screen; this should be elevated 4' to 5' on stakes to provide free circulation of air underneath. Plant in a soil mixture containing 50% good light garden loam and 50% granulated peat moss or oak leaf mould. Water well after planting and mulch with leaf mould or peat moss. Do not cultivate but pick weeds out by pulling. Do not allow ground to get dry, but do not water too much or too often, there is a happy medium. These plants will all do well in part shade and also in sun. Cut off 75% of light for first 6 weeks and then 50%.

AZALEAS AND OTHER ACID LOVING PLANTS:

"Chinese" E. H. Wilson said, speaking of Azaleas, "They are not surpassed in wealth of blossom by any class of hardy shrubs. The flowers vary enormously in size in the different species and embrace all shades of every color except blue. In many the flowers are delightfully fragrant. — small wonder the desire to possess them is so general. No class of shrubs possess greater attractions, and given certain essential conditions and provided the varieties are perfectly hardy their culture is fairly simple."

A Philadelphia collection of Azaleas and Rhododendrons is visited each year by thousands of people who marvel at the brilliant, vivid colors and profusion of bloom, which is almost unbelievable, and yet for a few dollars and a bit of patience a more extensive range of colors and varieties is available from this list.

- Azalea AMOENA - Semi double purplish red flowers in profusion. Small evergreen leaves, turning beautiful bronzes in fall - 3-6" - 3 for 50 cents
- " Alanwold Brick, vivid brick red flowers, semi evergreen, grows tall. 3-5" 3 for 50c.

- Hydrangea - CATAWBIENSE Large rosy purple flowers 3-4" - 2 for 50 cents.
- Hydrangea - CAROLINANUM - Bright pink flowers 3-4" - 2 for 50 cents.
- Hydrangea - MAXIMUM - Native Rhododendron - stands dense shade pink flowers 4-5" - 2 for 50 cents.

In winter time American gardens present a dismal, naked sight that emphasizes the bareness of the season. Little of the beauty of spring, summer or fall remains. Yet it is so easy to change this with a few evergreen vines, shrubs and trees and some light berried shrubs. With an attractive evergreen background, winter seems shorter and much more pleasant and nothing is a more beautiful sight than to see them partly covered with snow.

- EVERGREEN TREES AND SHRUBS. Plant in any good soil. All should be well rooted for 2 months after planting with a lath shade or planted in part shade of a building. Water with either peat moss or leaf mould. Most of the following plants will make fine specimens in three to four years.
- Abelia Grandiflora, semi evergreen with arbutus like flowers - 8-12" - 2 for 50 cents - \$15.00 per 100.
- Azalea Japonica - Jap box - large apple green leaves - 3-6" - 5 for 50 cents - very hardy 8-8" - 3 for 50 cents - \$7.50 per 100.
- Calluna Scoparius - Scotch Broom, evergreen foliage, yellow flowers - 12-18" - 3 for 50 cents
- Conifer Canadensis, Native Hemlock. The first choice of all native evergreen trees, suitable for specimens or Hedges - 5-8" - 5 for 50 cents. Will grow in shade. \$6.00 per 100
- Ilex Bullata - Leaves like Boxwood - Will grow in shade - Very rare - 4-8" - 4 for 50 cents - \$7.50 per 100.
- Japanese Holly - small pointed glossy leaves, grows in shade, retains color in winter, makes marvelous hedge - 4-6" - 4 for 50 cents - \$7.50 per 100.
- Juniper-Depressa Plumosa (Andorra Juniper) pleasing purple in winter 6-8" - 2 for 50 cents
- Leucothoe Catesbaei - Racemes of lily of the valley like flowers. Rich bronze foliage in winter, 4-6" - 3 for 50 cents - \$10.00 per 100.
- Magnolia Clauca - semi evergreen white flowers, fragrant 2-3" across 6-8" - 2 for 50 cents.
- " Grandiflora - Southern magnolia, white flowers - large evergreen leaves like rubber plant, Hardy South of Phila. - 6-8" - 2 for 50 cents.
- Phyllostachys Publica, Heavenly bamboo, Bamboo like foliage, bright red berries, good red leaves in the fall 6-8" - 2 for 50 cents
- Rhododendron Terminalis, best evergreen ground cover for very shady spots Plant 6" apart. 5 for 50 cents - \$5.00 per 100.

The picea or spruces are most attractive evergreen trees which introduce a horizontal note into landscape and give a wonderful variety of color and shapes. Both Firs and Spruces make majestic trees, are very symmetrical and keep a good color in winter.

- Picea Engelman, soft blue needles - 3-6" - 3 for 50 cents.
- Pseudotsuga Douglasi - fine large-conifer - soft bluish foliage - 4-6" - 4 for 50 cents

Most Pines grow rapidly, some more rapidly than deciduous trees, making as much as 30 inches a year. Make good screens, backgrounds and the best possible windbreaks. With a good Pine border on the windward side, your home will seem 500 miles further south and you will be able to grow plants that are otherwise impossible. A windbreak of pines will make your home more comfortable and life more pleasant, by protecting it from the cold winds.

- Pinus Mughus, very dwarf, dark green needles - 3-4" - 3 for 50 cents.
- " Resinosa - 5-10" - 5 for 50 cents - Norway Red Pine, very dense dark green -
- Scotch - very fast growing - blue green foliage - very hardy - good for screens - 4-6" - 5 for 50 cents -
- Juniperus Horizontalis evergreen firethorn - 6-8" - 2 for 50 cents - orange red berries, very showy.
- Juniperus Japonica, a dwarf plant with large glossy green leaves and bright red berries, which hang on a long time, 4-6" - 2 for 50 cents.
- Juniperus Horizontalis - Japanese Yew, spreading form. Most permanent hedges. The fine hedges in Japan are Yew hedges. A Yew hedge will add thousands to the value of an estate. 4-6" - 4 for 50 cents - \$9.00 per 100.
- Juniperus Horizontalis - Columnar in growth - Long dark green needles - 4-3" rooted cuttings - 5 for 50 cents.

- Juniperus Horizontalis - dark green heavy foliage - grows almost prostrate - 4-6" - 4 for 50 cents.
- Juniperus Horizontalis - Phytolophyllum - Leather leaf Viburnum - large white flowers, red berries and 6-8" long - 6-8" - 2 for 50 cents.

- Juniperus Horizontalis - American Arbor Vitae - 4-8" - 5 for 50 cents - \$6.00 per 100.

PLANTING TREES - plant both trees and shrubs in any good soil. Water well after planting. Words cannot describe the beauty of these showy trees. Shade well and keep them except crab apples.
